

ADTA 5900/5560 – RNN for Sequence Data

Final Project: Peer Evaluation Instructions

Thuan L Nguyen, PhD

1. Overview

It is recommended that the student should watch all the classmates' videos. He/she is also required to provide peer-evaluation opinions on the videos of three classmates that are randomly assigned by the instructor. The evaluation will be done based on the instructor's guidelines. It is strongly advised that the names of the classmates who will receive the peer-evaluation opinions are strictly confidential. The student provides the peer-evaluation opinions by sending back the forms to the instructor by the due date.

2. The Likert Scale for Peer-Evaluating

To evaluate each section, the student selects one of the 5 entries of the Likert scale:

1. Strongly disagree with the classmate's work on this section: 1 point
2. Mostly disagree with the classmate's work on this section: 2 points
3. 50% agree, 50% disagree with the classmate's work on this section: 3 points
4. Mostly agree with/like the classmate's work on this section: 4 points
5. Strongly agree with/really like the classmate's work on this section: 5 points

3. HOWTO Peer-Evaluate

Evaluator's Full Name:

[The evaluator enters his/her full name.]

Classmate's Full Name:

[The evaluator enters the full name of the classmate whom the student is peer-evaluating.]

Overall Evaluating Score (/5):

[The evaluator enters the overall peer-evaluating score that is the mean score of the average evaluating score of the Final Project Report and that of the Final Project Presentation.]

Overall Feedback:

[The evaluator enters the overall peer-evaluating feedback on the classmate's final project, both the reports (based on the contents of the video) and the presentation (based on how the classmate presents his/her work in the video).]

4. Final Project Report:

Average Evaluating Score (/5):

[The evaluator enters the average evaluating score of the Final Project Report sections.]

4.1 PART I

Evaluating Score (/5):

[The evaluator enters the Likert scale score of this Final Project Report section.]

*[The evaluator **has to provide reasons and details** to support why he/she has such peer-evaluation of this Final Project Report section.]*

*[If the evaluator thinks that this Final Project Report section needs improving, he/she has **to provide details** of what the classmate should do to improve it.]*

4.2 PART II

Evaluating Score (/5):

[The evaluator enters the Likert scale score of this Final Project Report section.]

*[The evaluator **has to provide reasons and details** to support why he/she has such peer-evaluation of this Final Project Report section.]*

*[If the evaluator thinks that this Final Project Report section needs improving, he/she has **to provide details** of what the classmate should do to improve it.]*

4.3 PART III

Evaluating Score (/5):

[The evaluator enters the Likert scale score of this Final Project Report section.]

*[The evaluator **has to provide reasons and details** to support why he/she has such peer-evaluation of this Final Project Report section.]*

*[If the evaluator thinks that this Final Project Report section needs improving, he/she has **to provide details** of what the classmate should do to improve it.]*

4.4 PART IV

Evaluating Score (/5):

[The evaluator enters the Likert scale score of this Final Project Report section.]

*[The evaluator **has to provide reasons and details** to support why he/she has such peer-evaluation of this Final Project Report section.]*

*[If the evaluator thinks that this Final Project Report section needs improving, he/she has **to provide details** of what the classmate should do to improve it.]*

4.5 PART V

Evaluating Score:

[The evaluator enters the Likert scale score of this Final Project Report section.]

*[The evaluator **has to provide reasons and details** to support why he/she has such peer-evaluation of this Final Project Report section.]*

*[If the evaluator thinks that this Final Project Report section needs improving, he/she has to **provide details** of what the classmate should do to improve it.]*

4.6 PART VI

Evaluating Score:

[The evaluator enters the Likert scale score of this Final Project Report section.]

*[The evaluator **has to provide reasons and details** to support why he/she has such peer-evaluation of this Final Project Report section.]*

*[If the evaluator thinks that this Final Project Report section needs improving, he/she has to **provide details** of what the classmate should do to improve it.]*

4.7 PART VII

Evaluating Score:

[The evaluator enters the Likert scale score of this Final Project Report section.]

*[The evaluator **has to provide reasons and details** to support why he/she has such peer-evaluation of this Final Project Report section.]*

*[If the evaluator thinks that this Final Project Report section needs improving, he/she has to **provide details** of what the classmate should do to improve it.]*

5. Final Project Presentation

Average Evaluating Score (/5):

5.1 Contents of the presentation

Evaluating Score (/5):

[The evaluator enters the Likert scale score of this Final Project Report section.]

*[The evaluator **has to provide reasons and details** to support why he/she has such peer-evaluation of this Final Project Report section.]*

*[If the evaluator thinks that this Final Project Report section needs improving, he/she has to **provide details** of what the classmate should do to improve it.]*

5.2 Style of the presentation

Evaluating Score (/5):

[The evaluator enters the Likert scale score of this Final Project Report section.]

*[The evaluator **has to provide reasons and details** to support why he/she has such peer-evaluation of this Final Project Report section.]*

*[If the evaluator thinks that this Final Project Report section needs improving, he/she has to **provide details** of what the classmate should do to improve it.]*
